The election requirement is withdrawn in light of applicants' remarks.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 5-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Applicants refer to a "step (6)" in claim 5 which is not contained in the claim(s) from which it depends (i.e., no antecedent basis). Appropriate correction is required.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-40 are rejected under 35 U.S.C. 102(b) as being anticipated by Fritschel (3,856,721).

Fritschel discloses preparations of syntactic foams containing microspheres, binders, and stabilizers wherein the foam is deformable and reshapable in the manner as defined by the claims (see the entire document).

Claims 1-61 are rejected under 35 U.S.C. 102(b) as being anticipated by Gowan, Jr. et al.

Gowan, Jr. et al. discloses a stable foam composition, and methods for their preparation, prepared from polymers, microspheres, binders, and stabilizer, and pharmaceutical compositions in a manner which reads on the preparations defined by applicants' claims. (See the entire document).

Art Unit: 1711

Claims 1-61 are rejected under 35 U.S.C. 102(b) as being anticipated by Staab.

Staab discloses foamable composition in pharmaceutical delivery preparations which read on the products and processes of applicants' claims. (See the entire document).
